-

RESEARCH EXPERIENCE AND SKILLS**1) Bacteriology**

- Isolation and identification of bacterial isolates from clinical samples
- Preparation of all types of Artificial media for bacterial and fungal culturing
- Antibigram and various biochemical tests

2) Immunology

- Haemagglutination (HA)
- Haemagglutination Inhibition (HI)
- AGID
- ELISA
- Latex agglutination test
- Co agglutination test

3) Molecular Biology

- DNA extraction techniques
- PCR
- Multiplex PCR
- Reverse transcriptase PCR
- RFLP
- Agarose gel Electrophoresis
- PAGE
- Molecular Cloning
- Blood Grouping

4) Virology

- Egg inoculation
- Tissue culture

5) Assisted in teaching for UG during laboratory classes

- Blood Collection in Large and Small animals
- Drug administration via different routes in animals
- Recording of clinical Parameters
- Administration of Anaesthetic drugs
- Practical knowledge of different Haematological techniques

6) Other skills

- Microsoft word
- Microsoft excel
- Microsoft power point
- Other basic computer and mobile software

7) Languages

- Hindi, English.

EXPERIENCE

- 1) Six months field experience during B.V.Sc. internship program.
- 2) Six months working experience as Pathologist at Bhatia Clinical Lab, Jammu.
